

CHEMICAL STORAGE & HANDLING POLICY

Our aim at Vamani Overseas pvt ltd. is to provide a healthy and safe workplace for all EMPLOYEES, by providing direction for the development and implementation of safe systems of work in relation to the assessment, storage, use and disposal of hazardous/Non-Hazardous substances in the course of the service.

Procedure: -

- We at Vamani have designated employees who are provided with sufficient trainings (Internal/ External) for handling & storage chemicals.
- MSDS (MATERIAL SAFETY DATA SHEET) & TDS (TECHNICAL DATA SHEET) for all hazardous/non-hazardous substances is available in our Washing/Lab dept.
- All chemicals are kept in locked area & only authorized persons can access into it.
- All chemicals are clearly labelled with chemical name, manufacturing date, manufacturer name, batch no. and stored in their original containers. Modification of containers or reuse of container is not permitted.
- Each & every container is placed upon secondary container.
- Chemicals in solid and liquid forms are properly segregated.
- Weigh each product in its own weighing accessory (jars, buckets, spoons, etc. labelled specifically for that product)
- Separate mug is attached to each chemical container.
- MSDS is also displayed in chemical storage area, washing area & in Lab.
- Staff/Supervisors always make sure that employees use correct chemicals for the task & it is according to the specified recipe.
- Vamani provides PPE's (Personal Protective Equipment) to employees for safe work condition for e.g. Rubber gloves, masks, apron, eye goggles, eye wash cups, boots etc.
