

ENVIRONMENT POLICY & PROCEDURE

Vamani is committed towards health of its employees as well as its surrounding atmosphere and residing neighbor people there. Hence, we will be aware of our working activities and its effects on the environment and will always be ready to minimize its ill effects. Company will make its objective for environment management, will analyses it and will periodically review it.

Vamani is also committed towards non-pollution and obey all the rules and laws for making a safe and clean environment. In the quest of Excellency, Vamani will adopt new practices for renewal and preservation of environment and natural resources.

We will achieve this objective by education our employees and other people about this and by continue research and improvement in our techniques and processes.

This policy is well communicated to every employee of the company and will be presented if necessary.

Responsibility:

We have a full-time working Safety officer to take care the responsibility of all this. Including this, it is the obligation of every employee to contribute in the preservation of the environment.
